Washington, DC 20554

Commissioner Abernathy:

As a teacher and soon to be grandmother, I have seen the effects of violence from TV and movies on the playground at school. It really effects the children and you can tell the ones that are watching it. They don't know how to handle anger without hitting and they don't handle disbutes very well either. The children who are guarded at home will relate to each other as a family and will work out differences.

Sincerely,

Suzanne W. Russell

Commissioner Abernathy:

Dear Chairman and Commissioners,

Thank you for the opportunity to voice my opinion about violence on TV. I am disgusted with the majority of the programming that is on due to violence, foul language and jokes, and sexual content/innuendos. As a mother raising two young men to be leaders in our country, I refuse to let their minds be filled with such filth.

Our favorite channel is the Animal Planet. We rarely see violence, foul language and sexual content on this channel. I applaud the programmers on Animal Planet! Beyond that we watch a little PBS and the History Channel. That's about it. It would sure be nice if TV were more family oriented like it used to be, and parents didn't even have to worry about commercials!

Sincerely,

Carla Perez

I would like to express my concern on the amount of immorality (inc. sex and nudity) on television. I get frustrated that I often have to tell my kids to close their eyes or turn their heads for a minute, and sometimes that's just the commercials! I greatly appreciate the recent actions taken by the commission to help curb this, including fines and condemnations of decency violators. Please keep it up! Thank you for your efforts.

Chairman Powell:

Do we really have to tell you that TV is too violent for children? That would be the height of irony. That means children are not being protected by the adults in our society and it would be an outrage. We protect them from cars at school crossings, we protect them from alcohol and don't let them drive, we put them in car seats then we allow high quantities of violence on TV?

Please get real and reign in violence on TV. It is harmful to our children as literally thousands of studies have shown already. Get rid of the influence from highly placed TV executives and highly influential lobbyists and put children FIRST. Do this by getting violent programs off TV in the first place, not by using a ratings system. A ratings system is like putting ice cream in front of a kid and saying don't eat that, it'll spoil your dinner.

Sincerely,

Bob MacLean

Chairman Powell:

I was informed that the FCC is wanting comments from parents on television and violence. Our home has strict rules about television. In fact the only channel that is watched regularly is PBS. My daughter watches most of the childrens programs during the week. The only other shows watched on television are Doc and Sue Thomas FB Eye. I truly believe excessive violence is harmful the the development of children. I do not want my children watching shows that have violence or sexual content on it at all.

The violence, sex, and language has gotten so bad that my husband and I do not watch television on a regular basis either. If children are exposed to violence (and even teenagers and adults) regularly they get desensitized to it and the reality and horror of it is not prevalent in their minds. I believe that the parents need to be responsible for what their children are allowed to do but as I said why should teenagers or adults be subjected to excessive violence either? It is just not needed to make a show interesting. Please keep excessive violence of the airwaves so that families may enjoy watching television together.

Sincerely,

Marji Winters
